January 24, 2007

Brethren:

The decision to provide oversight to Video Bible Institute was made knowing this to be a wonderful endeavor for the congregation at the Central Church of Christ to be involved with spreading the gospel worldwide.

Establishing sound gospel preachers “in the field,” strengthening individual members and congregations of the Lord’s body, and evangelizing the world were all considered outcomes of this good work. This work provides an opportunity to take the gospel to anyone 24 hours a day, 7 days of the week.

Brother Jody Apple of Media, PA has committed to serve as the VBI director on a full time basis and has been found to be a very capable Christian to serve in this capacity. Brother Apple is deeply committed to the preaching and teaching of the gospel and will use his talents with technology to enhance the work of the Video Bible Institute.

We look forward to our working relationship with Jody and his tremendous amount of energy in the teaching of God’s Word.

In Christ,

*Danny Bowers, Mark Everson, Don Deitrick*
